

CEE6400 Physical Hydrology

Homework 5. Infiltration

Date: 10/2/13

Due: 10/14/13

Learning Objectives.

- Be able to calculate infiltration, infiltration capacity and runoff rates using the methods described in the Rainfall Runoff Processes workbook chapter 5.
1. Work through the material in **chapter 5** of the online Rainfall Runoff Processes module at <http://www.engineering.usu.edu/dtarb/rrp.html> and do the quiz at the end.

You do not need to actually hand anything in on this homework. I can view your results in this system and will verify your work and assign a grade based on the scores the system gives you. You may do end of chapter quizzes and the exam multiple times. I will use the highest score you get by the due date.
