

GIS in Water Resources Term Project Progress Report

Your GIS in Water Resources Term Project Progress Report is due 10/28/14

This should be a 2 page document that is prepared in PDF and replaces this document. It should give the following

- Project title
- Project objective
- Description of work to date
- Outline of work still to be done to complete the project

Other students in the class will be asked to read this progress report and comment on the following:

- Does the project make good use of GIS?
- Does the project provide a good learning experience?
- Does the student have the data he/she needs, or a plan to get it?
- Are the methods described and do they seem achievable in the time available?
- Is the scope sufficient (or too much/little) for a single semester project?
- Provide any suggestions you have for completing the project.

This document should be named "InterimProgressReport.pdf" and placed in your HydroShare resource following the instructions at

<http://www.neng.usu.edu/cee/faculty/dtarb/giswr/2014/HydroShareInstructions.html>
