

## GIS in Water Resources Term Project Proposal

Your GIS in Water Resources Term Project Proposal should be a 1 page document that is prepared in PDF. It should give the following

- proposed title
- objective for your term project
- data that you propose to use and how you will get it
- An outline of the steps you need to complete to do this project

This document should be named "Proposal.pdf" (use first letter upper case and the rest lower case the name) and saved in a HydroShare resource (at <http://beta.hydroshare.org>) named "<Firstname Lastname> GIS in Water Resources Term Project 2014" with subject keyword GISWR2014.

See <http://www.neng.usu.edu/cee/faculty/dtarb/giswr/2014/HydroShareInstructions.html> for instructions on saving this resource in HydroShare.
